PRESENTATION

Technature offers a new trendy professional care, positioning itself on three markets simultaneously: Natural, MediSpa and Beauty salon. The biocellulose masks and eye patches are a new experience of care that combines Innovation, Comfort and Performance.

— Excellent absorbency

Biocellulose masks have a very good absorbency due to their nanostructure which gives it a high absorption capacity⁽¹⁾ the biocellulose fibers are able to keep a large amount of liquid, of up to 100 times their dry weight, about 10 times more than nonwoven classic masks.

— Perfect adhesion to the skin

The organic cellulose fibers measure 20 nm in diameter, up to 33 times less than nonwoven masks! This fine texture allows to create a film which clings to the skin without stickiness. Their finesse is such that the fiber diameter is less than certain lines or wrinkles on the skin: the active-scattering is optimal for more than 20 minutes as opposed to nonwoven masks that tend to peel-off after.⁽²⁾

— High quality support

Biocellulose masks are incredibly flexible, tear-texture, high malleable due to the nanostructure of biocellulose, if need be, they can be removed and repositioned without modifying the support.

— More than a cosmetic support

The biocellulose, by its incredibly soft touch gives a natural fresh and an unique comfort to the skin: a real beauty support akin to a treatment in itself.

Moisturizing biocellulose mask TN

COSMETICS

PROFESSIONNAL
& RETAIL

T he + Innovation

A new trendy professional care positioning it on three markets simultaneously : **Natural, MediSpa & Beauty salon.** The superfine fiber structure of the biocellulose mask (obtained by natural fermentation of coconut water) allows them to fit like a second skin and to maintain dermal contact.

T he + Product

Biocellulose mask **soothes** and **hydrates** the skin, giving it a radiant & supple appearance after just 20 minutes of use. When applied, it forms a **protective membrane** that carries efficiently the beneficial ingredients contained in powerful serums. This biocellulose mask deeply **hydrates** and **softens** the skin.

Properties & Ingredients

Aloe vera	Aloe vera hydrates and nourishes the skin while maintaining its humidity and remove dead cells which asphyxiate it. Its soothing, moisturizing and restoring properties of this active ingredient is the perfect partner for first aid skin care.
Hyaluronic acid	Powerful regenerating cells , it preserves the youthful tissue and fights against the signs of skin ageing. Due to its relatively small molecule, hyaluronic acid is able to penetrate stratum corneum. As we age, skin loses hyaluronic acid and the ability to hold sufficient water in this reservoir. Feeding new hyaluronic acid to skin may help hydrate skin's intercellular reservoir, raising skin's moisture level, and smoothing down age lines.
Collagen	Main component of the conjunctive tissue of the dermis, the collagen is responsible for the skin's elasticity and resistance. The collagen has exceptional moisturizing properties . It boosts the dehydrated cells and helps to restructure the dermal tissues and fight against its ageing.
Glycerin	Moisturizes and softens dry or sensitive skin.
Fucogel®	Multi-sensory moisturizing , the Fucogel® enhances the skin softness and firmness. The skin is restructured; the face regains its density and its contours.

Ritual of Beauty

Open the peelable aluminium sachet. Biocellulose sheet is placed between a sheet of nylon and a blue non-woven. Remove successively those protective coverings and take biocellulose face sheet between thumb and forefinger.

Start applying the biocellulose on the upper front, then adjust it around eyes and mouth areas. Let it act during 20 minutes, then remove the mask and gently massage any excess serum into the skin.

For the face and neck version, apply first the face mask and then the neck mask.

Eyes patches or Eyes contour Biocellulose TN mask

anti-puffiness & anti-dark circles

T he + Innovation

A new trendy professional care positioning it on three markets simultaneously : **Natural, MediSpa & Beauty salon.** The superfine fiber structure of the biocellulose mask (obtained by natural fermentation of coconut water) allows them to fit like a second skin and to maintain dermal contact.

T he + Product

In the new range of biocellulose mask, these patches are the adapted version for the eye contour with its specific cutting form and its serum formula enriched in decongestant, anti-puffiness and moisturizer agents. **Say goodbye to any signs of tiredness (dark-circles, puffiness, ...)!**

Properties & Ingredients

Actiflow®	Rich in polysaccharides derived from yeast, it prevents puffy eyes and dark circles : - Reduce the volume of bags under eyes by protecting and enhancing the capillary blood, - Lightens the color of dark circle by its action on the hyperpigmentation of suborbital area.
Hamamelis extract	Thanks to its richness in tannin, the hamamelis extract has astringent and decongestant properties. The hamamelis soothes and relieves irritation of the eye contour area.
Fucogel®	Multi-sensory moisturizing, the Fucogel® enhances the skin softness and firmness. The skin is restructured; the face regains its density and its contours.
Glycerin	La glycérine est un agent hydratant, ses effets persistent pendant au moins 24 heures. Ses propriétés émollientes agissent sur l'extensibilité et la souplesse de la peau.

Ritual of Beauty

Open the peelable aluminium sachet. Biocellulose patches are placed between a sheet of nylon and a blue non-woven. Remove successively those protective coverings and take biocellulose face sheet between thumb and forefinger. Start applying the biocellulose on the upper front, then adjust it around eyes and mouth areas. Let it act during 20 minutes, then remove the mask and gently massage any excess serum into the skin.

Open the peelable aluminium sachet. Unfold the eyes contour mask. Biocellulose sheet is placed between 2 sheets of nylon. Apply the mask and let it act during 20 minutes, then remove the mask and gently massage any excess serum into the skin.

Lightening biocellulose mask TM

COSMETICS

PROFESSIONNAL
& RETAIL

The + Innovation

A new trendy professional care positioning it on three markets simultaneously : **Natural, MediSpa & Beauty salon.** The superfine fiber structure of the biocellulose mask (obtained by natural fermentation of coconut water) allows them to fit like a second skin and to maintain dermal contact.

The + Product

Biocellulose mask **soothes** and **hydrates** the skin, giving it a radiant & supple appearance after just 20 minutes of use. When applied, it forms a **protective membrane** that carries efficiently the beneficial ingredients contained in powerful serums. Thanks to this mask, the complexion is perfectly **unified** and **luminous**.

Properties & Ingredients

Delentigo™	<p>This ingredient targets and lightens ages spots by combining two active substances incorporated into separate liposomes :</p> <ul style="list-style-type: none"> - An extract of Swiss garden cress sprouts which is rich in sulforaphane, a powerful antioxidant phytonutrient. - Genistein, the biologically active form of the most abundant soy isoflavone. <p>Age spots appear on UV-exposed areas of the body mainly after 50. They are characterized by an increased production of two pigments : melanin and lipofuscin.</p> <p>Delentigo™ prevents and regulates the formation of both pigments. It also inhibits the accumulation of lipofuscin in the skin by activating the proteasome, the cell's own cleaning system which oxidized proteins.</p> <p>Claim ideas for Delentigo™:</p> <ul style="list-style-type: none"> - it creates an even skin tone, - visibly reduce age spots, - and prevents photo-ageing and dark spots.
Lemon extract	<p>Rich in vitamins C and AHA, lemon extract revitalizes the facial skin and effectively protects cells against oxidation, thus preventing their degeneration. Composed of limonene and geranal, it has stimulant and tonic properties; it boost cell renewal.</p>
Glycerin	<p>Moisturizes and softens dry or sensitive skin.</p>
Fucogel®	<p>Multi-sensory moisturizing, the Fucogel® enhances the skin softness and firmness. The skin is restructured; the face regains its density and its contours.</p>

Purifying and oxygenating biocellulose mask TN

COSMETICS

PROFESSIONNAL
& RETAIL

The + Innovation

A new trendy professional care positioning it on three markets simultaneously : **Natural, MediSpa & Beauty salon.** The superfine fiber structure of the biocellulose mask (obtained by natural fermentation of coconut water) allows them to fit like a second skin and to maintain dermal contact.

The + Product

Biocellulose mask **soothes** and **hydrates** the skin, giving it a radiant & supple appearance after just 20 minutes of use. When applied, it forms a **protective membrane** that carries efficiently the beneficial ingredients contained in powerful serums. The association of a **purifying & oxygenating complex** with green revitalizes and restores the radiance to oily-trend skins.

Properties & Ingredients

Green tea extract	The green tea leaves allow the skin to get rid of fatty acids thanks to their lipolitic activity. It drains the doxins (thanks to theanine and the flavonoids contained on its leaves) and reduces the orange skin effect by smoothing the skin. Their high concentration in antioxidant eliminate bacterias.
Purisoft®	Purisoft® is a peptide obtained by extraction of the seeds of Moringa oleifera (a tree native to india). It has a dual activity, combining: - the capacity of protecting skin cells against aggressions by pollutants, - and the efficacy in purifying the skin, by facilitating the removal of all micro-particles, coming from the environment that "asphyxiate" the skin.
Oxygeskin®	Rich in arabinogalactans from Nasturtium, Oxygeskin® boosts the body's capacity to overcome hypoxic stress and eases the transport of oxygen within cells. By promoting oxygenation of skin cells, this active ingredient improve the skin's surface condition giving it a healthy glow.
Glycerin	Moisturizes and softens dry or sensitive skin.
Fucogel®	Multi-sensory moisturizing, the Fucogel® enhances the skin softness and firmness. The skin is restructured; the face regains its density and its contours.

Ritual of Beauty

Open the peelable aluminium sachet. Biocellulose sheet is placed between a sheet of nylon and a blue non-woven. Remove successively those protective coverings and take biocellulose face sheet between thumb and forefinger.

Start applying the biocellulose on the upper front, then adjust it around eyes and mouth areas. Let it act during 20 minutes, then remove the mask and gently massage any excess serum into the skin.

Biocellulose neckline mask TN

COSMETICS

PROFESSIONNAL
& RETAIL

The + Innovation

A new trendy professional care positioning it on three markets simultaneously : **Natural, MediSpa & Beauty salon.** The superfine fiber structure of the biocellulose mask (obtained by natural fermentation of coconut water) allows them to fit like a second skin and to maintain dermal contact.

The + Product

Thanks to the complex of active ingredients contained in the serum, this neckline mask replenishes and restores the vitality of your skin, for a **firmer and toned bust.** The skin becomes more radiant and voluptuous.

Properties & Ingredients

Bio-Bustyl®PH	<p>Bio-bustyl® is a triple synergistic association :</p> <ul style="list-style-type: none"> - a biotechnological bacterial filtrate rich in growth factors, - the biopeptide palmitoyl-glycyl-histidyl-lysine (stimulate collagen neosynthesis) - the biopeptide palmitoyl-valyl-glycyl-valyl-alanyl-prolyl-glycine (so-called «elastic» sequence of elastine.) <p>Bio-bustyl® contributes to the stimulation of metabolism, to the stimulation of dermal collagen synthesis, to the restructuration of elastic fibers and to increase in body tonicity and firmness. Bio-bustyl® is recommended for body and bust care, in firming and anti-fatigue cares.</p>
Glycérine	The action of the glycerin visibly enhances the skin's smoothness and suppleness.
Fucogel®	The Fucogel® is a moisturizing active ingredient that acts by forming a sheathing film on the skin. It brings softness and comfort to cosmetic formulas. In addition, the Fucogel® stimulates and tones the skin.

Ritual of Beauty

Open the peelable aluminium sachet. The biocellulose sheet is placed between two sheets of nylon. Remove successively those protective coverings and take biocellulose neckline sheet between thumb and forefinger.

Apply the mask on neckline and let it act during 20 minutes, then remove the mask and gently massage any excess serum into the skin.
