- 7Y16 Eyes patches with carambola (with tissue support)
- 7V01 Face mask

PRESENTATION

The hydrogel made in France and customizable

With its unique gel texture, Hydrogel masks and patches are the must-have beauty care product !

This infatuation associated with the desire to continuously offer new trendy products in line with the market place, prompted Technature to invest at the end of the year 2014, in a machine park that allows the manufacturing and conditioning of this technology called Hydrogel.

The acquirement of this know-how allowed putting into action three different manufacturing methods for Hydrogel's masks and patches :

Hydrogel

Hydrogel with
tissue support

Hydrogel with
thermoforming mould

The Hydrogels of Technature are made of natural Polymers named carrageenans. They are polysaccharides that constitute the cell walls of various red seaweeds. They are also made of sulfated D-galactose. Therefore, this matrix composed with carrageenans (and water) creates a filmogenic gel that spreads the incorporated active ingredients, to the cutaneous tissue. Whether they have face mask or eye contour patches forms, hydrogels are easy to use, and suitable to all facial shapes like a second skin.

As usual with Technature products, the mask and patches are customizable (shapes, formulations, devices...) according to your needs and your terms of service.

Hydrogel eyes contour mask

The + Product

The texture of this mask makes it unique and fresh. It contains carrageenan (natural polymers) that **form a filmogenic gel**. They provides better diffusion of actives. It adapts well to different head and face shapes, **like a second skin**.

The + Power

This exceptional action of actives is a great partner to fight tiredness ! This sparkling hydrogel mask will **illuminate your eyes** ! It maintains skin's softness, elasticity but also **toned and smoothed**! Have a brief rest with this mask which gives you a **healthy and unified skin**!

Properties & Ingredients

Osilift®	Osilift® Bio is a 100% natural sugar tensor purified fraction from oat polysaccharides obtained from organic farming. This very-high-molecular-weight network of complex sugars linked by intra- and inter-chains hydrogen bonds adheres to the surface of the skin in a continuous and cohesive biological "lifting" film. It tones, smoothes and firms up the skin.
Eyeliss®	Eyeliss® is a combination of three working molecules. it reduces bags under the eyes. The fatigue of the eyes decreases and it illuminates eyes.
B5 vitamin	D-Panthenol is the dextrogyre form of the vitamin B5 which is metabolized to pantothenic acid into the skin. Moisturizing and emollient, the provitamin B5.
Collaxyl IS®	It is an anti-aging cosmetic active , giving a smooth effect. It is ideal for the drought and cold contitions. It penetrates the skin and decreases its irregular aspect. It gives a healthy and unified skin, it leaves the skin supple, relaxed and keeping it in good conditions. Collaxyl IS is a collagen's peptide.

Ritual of Beauty

1. Open the aluminum sachet.
2. The mask is placed between two transparent sheets.
3. Apply the mask on the eyes contour and press gently to make it stay on the skin.
4. Leave it on for 10-15 minutes and remove the mask. (single use).

Hydrogel eyes patches

The + Benefit

This mask contains actives which enhances the skin's **smoothness** and **suppleness**. It is moisturized, soothed and softened. This combination of actives is a great partner to **reduce under-eye puffiness**.

The + Product

With its unique gel & fresh texture, the eyes patches hydrogel are made of natural polymers named **carrageenans**. They create a filmogenic gel and provide better diffusion of actives. **Easy to use**, these patches fit to the natural shape of the eyes.

Properties & Ingredients

Cornflower water	Calming, astringent and regenerating , the cornflower water refreshes and tonifies the skin. Thanks to its stimulating and lightening properties, it is the ideal water for dull and lackluster skins.
Eyeliss®	Eyeliss® is a combination of three working molecules (Hesperidin methyl chalcone, Dipeptide VW, Peptide Pal-GQPR). It reduces under-eye puffiness. The fatigue of the eyes decreases and it illuminates eyes.
Hamamelis (extract)	Hamamelis belongs to Hamamelidaceae family and is a scrub native to North America. It is also called witch hazel. Its leaves were widely used in the Indian pharmacopoeia for its soothing and circulatory properties .
D-Panthenol	D-Panthenol is the dextrogyre form of the vitamin B5 which is metabolized to pantothenic acid into the skin. Moisturizing and emollient , the provitamin B5 maintaining skin's elasticity and softness.
Glycerin	The action of the glycerin visibly enhances the skin's smoothness and suppleness .

Ritual of Beauty

1. Open the peelable aluminium sachet.
2. The patches are placed between 2 transparent sheets, take patches.
3. Apply a patch under each eye.
4. Press softly to make them stay on the skin.
5. Let it act during 15 minutes and remove the patches.

Single use.

Eyes patches Tissue hydrogel

The + Product

With its unique gel texture, the eyes patches hydrogel are made of natural polymers named **carrageenans**. They create a filmogenic gel that spreads the incorporated active ingredients. **Easy to use**, eyes patches are suitable to all facial shapes.

The + of these patches :
The tissue gives a soft touch !

The + Benefit

The active ingredients are **incorporated in the gel**. They help to reduce bags under the eyes. The association of specific active ingredients restore radiance and freshness to the eyes contour area in a new few minutes! Carambola contains actives with **antioxidant and anti-ageing properties**.

Properties & Ingredients

HaloxyTM*	Haloxy TM is an association of two matrikines that lessens under eye dark circles. These reinforce firmness and tone of the eye area, as well as activate the elimination of blood originated pigments responsible for dark circle colour and local inflammation. Specifically, this product is recommended for use in dark-circle treatments, eye contour care and concealers.
Carambola (extract)	Carambola is a tropical fruit. It is rich in vitamin C and polyphenols. <u>Vitamin C</u> : Real elixir of youth, the antioxidant properties of vitamin C (ascorbic acid) and its role in collagen synthesis make vitamin C a vital molecule for radiant skin. Vitamin C prevents damage caused by free radicals from UV rays, pollution and contributes to photoprotection and decreases photodamage. It is therefore very interesting for anti-ageing, anti-pollution and after-sun products. <u>Polyphenols</u> : It contains antioxidant and anti-ageing properties. Carambola is very interesting for anti-pollution, and anti-ageing cares.
D-Panthenol	D-Panthenol is the dextrogyre form of the vitamin B5 which is metabolized to pantothenic acid into the skin. Moisturizing and emollient, the provitamin B5 maintaining skin's elasticity and softness

Ritual of Beauty

Open the peelable aluminium sachet. The patches are placed between 2 transparent sheets. Apply a patch under each eye. Press softly to make them stay on the skin. Let it act during 15 minutes and remove the patches. Then, gently massage any excess serum into the skin.
Leave on for 10-15 minutes then retire. *Single use.*

Durability : 24 months

Hydrogel face mask

The + Product

With its unique gel texture, the hydrogel masks are made of natural polymers named **carrageenans**. They create a fresh filmogenic gel that spreads the incorporated ingredients. **Easy to use**, this mask is suitable to all facial shape **like a second skin**.

The + Benefit

The association of two active ingredients : a moisturizer and an anti-ageing, **helps to fight the signs of the times** for a healthy-looking skin.

Properties & Ingredients

Carrageenans	Carrageenans are polysaccharides that constitute the cell walls of various red seaweeds. They are also made of sulfated D-galactose. Therefore, this matrix composed with carrageenans and water creates a fresh filmogenic gel that spreads the incorporated active ingredients .
Sodium hyaluronate	Sodium hyaluronate is the sodium salt of hyaluronic acid . Hyaluronic acid is one of the most important components of the skin. With its powerful water-retaining ability, it plays a major role in the integrity of skin structure and the regulation of skin hydration. Applied to the skin, it forms a nonocclusive moisturizing film that gives the skin a soft & velvety appearance. It is a great moisturizing agent .
Hyaluro-smooth™	Hyalurosmooth™ is a natural, botanically derived high molecular weight polysaccharide from the seeds of the Indian plant : Cassia angustifolia. Hyalurosmooth™ has a dual activity : it's a moisturizer and an anti-ageing. The polysaccharides form a protective film on the skin. By providing moisturization the skin is additionally plumped up. As a result of the smoother surface, light reflexion is also improved, leading to increased skin radiance . Skin feels smooth, soft and silky.
D-Panthenol	D-Panthenol is the dextrogyre form of the vitamin B5 which is metabolized to pantothenic acid into the skin. Moisturizing and emollient , the provitamin B5 regulates the water content of the skin and maintains the skin's natural softness and elasticity

Ritual of Beauty

Open carefully the aluminium sachet. The mask is placed between two transparent sheets. Remove the first sheet of protection and the eyes & lips cuts. Then, apply the mask on the face and press gently to make it stay on the skin. Leave it act 10 to 15 minutes and remove the mask. (single use)
