your health, our care

amiOil & amiButter Collection

amitahc presents its special selection of superior Oils
and Butters from all over the world.

www.amitahc.com

Precious Oils and Butters

Vegetable oil is the most ancient expression of beauty care around the globe; Egyptians, Greeks, Mayas, Aztecs, Incas used to clean and make up their bodies with the most precious and fragranced natural products.

The oldest method of extraction is cold pressure, which preserves all the natural qualities of the plant. This technique is still used nowadays for the finest and precious products.

Our oils and butters are pure, free from impurities, with characteristic odor, for the maximum satisfaction in use. All of the following oils and butters are also available in organic version.

Our oils from the world

America

Avocado Oil

Persea Gratissima Oil

Rich in Phytosterols and Unsaponifiables

It improves tone, texture and appearance of the skin; ideal to protect mature skin and wonderfully suited for dry skin

Babassu Oil

Orbignya Oleifera Seed Oil

High content of Lauric Acid, soft and creamy consistence

No-greasy, it melts upon contact with the skin and penetrates quickly; exceptionally soothing, protective and emollient

Cocoa Butter

Theobroma Cacao Seed Butter

Very stable oil with high melting point (30-35°), it acts as consistency regulator in emulsions

Deal for dry skin, quite easy to spread

Evening Primrose Oil

Oenothera Biennis Oil

Contains up to 10% GLA of gamma-Linolenic acid

Suitable for sensitive skin type, atopic dermatitis and eczema treatments

Jojoba Oil

Simmondsia Chinensis Seed Oil

Very light oil, similar to wax, with skin protecting and moisturizing properties.

Suitable for dry and mature skin, recommended for damaged hair products

Europe & Africa

Argan Oil

Argania Spinosa Kernel Oil

Well balanced fatty acid composition, predominately Oleic and Linoleic acid

Remarkable ability to nourish, moisturize and protect hair; it helps in supporting skin elasticity

Linseed Oil

Linum Usitatissimum Seed Oil

Very rich in alpha-Linolenic acid, quickly drying property.

Versatile, penetrating, emollient oil for nourished and hydrated skin feeling; it restores luster, soothes and protects hair and scalp

Safflower oil

Carthamus Tinctorius Seed Oil

Significant percentage of Linoleic acid (80%), it contains Vitamin E

Especially moisturizing, nourishing and beautifying for the skin

Shea Butter

Butyrospermum Parkii Butter

High content of Phytosterols and Vitamin E

Very rich feeling, recommended for dry and atopic skin; ideal for body butter concepts

Asia & Australia

Borage Oil

Borago Officinalis Seed Oil

Contains high amounts of gamma-Linolenic acid, up to 20% GLA

Suitable for mature, damaged and sensitive skin types as well as atopic skin

Hemp Oil

Cannabis Sativa Oil

Rich in Linolenic and Linoleic acid, also contains some GLA

Ideal for dry and sensitive skin, it penetrates quickly and improves skin barrier functions

Macadamia Oil

Macadamia Integrifolia Seed Oil

Rich in Palmitoleic acid

It protects skin, lips and hair from moisture loss, it restore dull and damaged hair and provides natural shine

Perilla Oil

Perilla Ocymoides Seed Oil

Highest alpha-Linolenic acid content (>60% Omega-3)

Recommended for Anti-Aging products, it acts as lipid membrane fluidizer

Pomegranate Oil

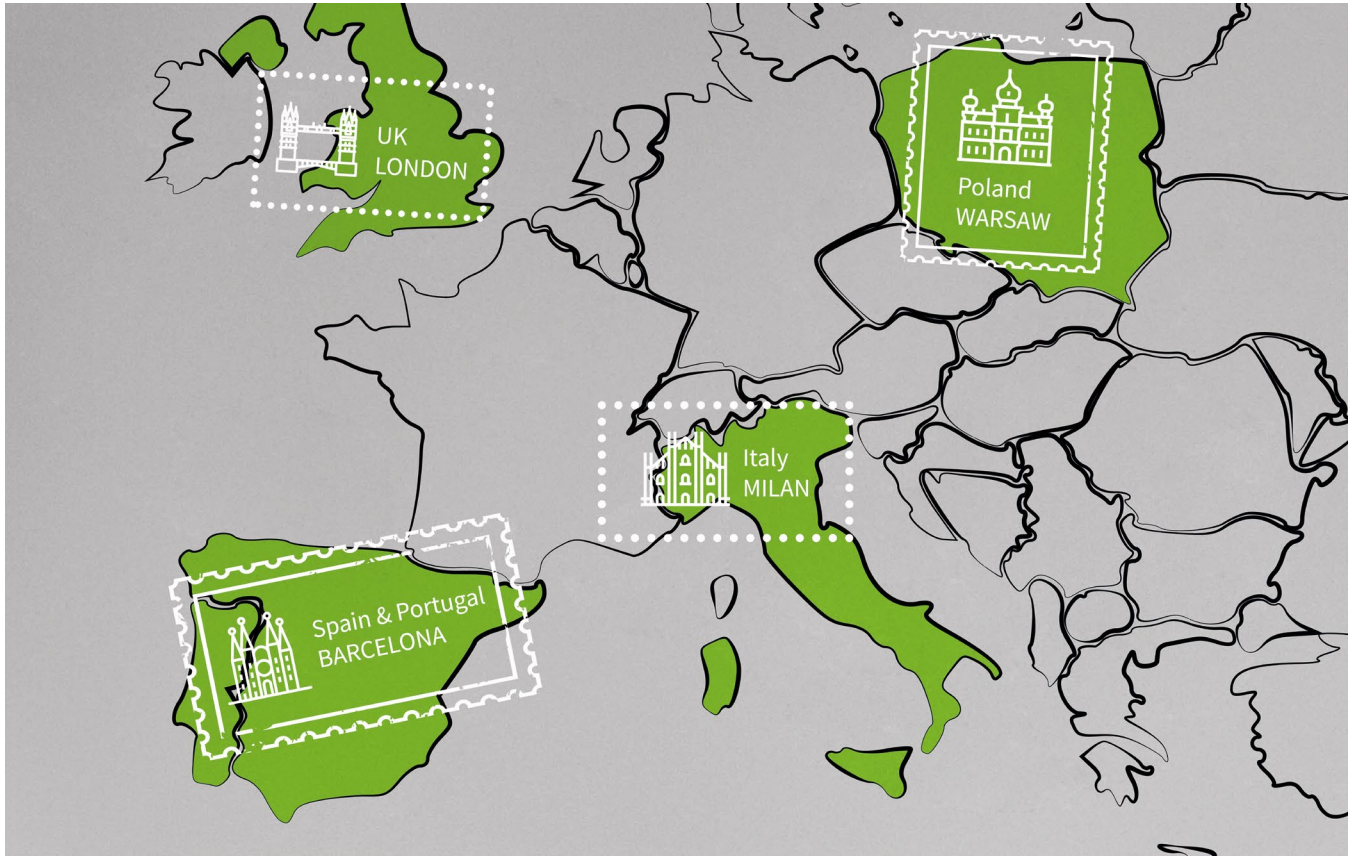

Punica Granatum Seed Oil

Very rich in conjugated Linolenic acid, it stimulates Keratinocyte proliferation

Especially recommended for Anti-Aging products for its antioxidant and thickening effects

amitahc Group
