# ASTAXANTHIN COMPETENCE CENTRE

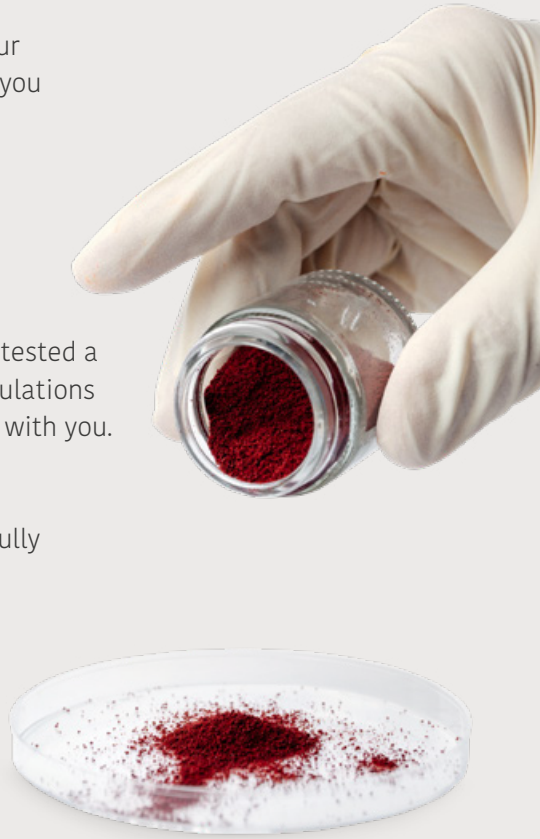

You select the service from one of our offerings, and we create the product you require to meet your needs.

## STANDARDISED

As simple as you can imagine. We have developed and successfully tested a variety of innovative framework formulations that you just need to select and take with you.

### Advantage:

Short time to market with a successfully completed product.

## CUSTOMISED

We develop and produce for international brands and accompany visionaries as well as aspiring start-ups. Thanks to our experts and our in-house laboratories, we design the product you imagined and fine-tune it together with you.

### Advantage:

A unique, customised product.

### Services – from idea to product:

Idea of a unique product

Manufacturing of astaxanthin raw materials

Customised development & design

Manufacturing of AX bulk products

White labelling of final products
